Striking success as an expatriate, digital nomad or long-term traveller is only a few clicks away.

From the founder of the Colligere Expat Consulting, the company helping people in Europe, America and Asia.

Are you in another country and want to make friends, save money and excel at your job while still keeping a work-life balance? Worried about learning how to pay your expat taxes or making professional network in a new country?

What if I told that you don't need to struggle living abroad and with only 11 lessons, you can make it the time of your life, skyrocket your career and escalate your personal growth?

The only regret I have is that I needed to fail first, before learning the lessons written in this book. You, on the other hand, can skip straight to success with some expat secrets:

- The extraordinary source of information to make you like a local, still you are not using it! (hint: it is not the media or expatriate forums)
- The advice for your family you will never regret following. Neither they will.
- How to adapt to the local behaviour and etiquette in few days and succeed in your expat job.
- How to make the residents enjoy and respect you like one of them.
- How to thrive like a local without being one.

When I left my country 8 years ago, I committed a lot of mistakes. Errors that could be avoided if only I knew it...

Instead of giving up, I learned the expat secrets of this book, moved out again, first to the Middle East, then Asia, Europe...and became a better version of myself. The tips and ways written in this guide helped me to get promoted, triple my gains, find my wife and start my own business.

The rules contained in this book are universal, they worked for me in South America, Middle East, Asia and Europe, and they will work for you too.

***** I needed this book years ago! Awesome and practical!

This book is so helpful! I have lived as an expat in Sicily and Egypt. If I would have known some of these tips, life would have been even easier for me.

***** Awesome book!

This book has some excellent tips! The author provides so much information that if you're looking to live abroad you will need to read it! Make sure you do your proper research, that your goals are measurable and my favorite- talk with the taxi driver and cashier instead of the agents because they will not have a hidden agenda. Highly recommended!
