Legends speak of the mirror's ability to reflect celestial events, such as eclipses, comets, and distant cosmic phenomena. It was believed that gazing into the mirror under the right circumstances could offer insights into the future, communicate with spiritual beings or even reveal hidden truths about oneself.

However, breaking the mirror of heaven was considered an act of immense significance. This act wasn't about mere destruction but rather about transcendence - the breaking of illusions that veil our perception of reality and the pursuit of higher truths.

## **The Symbolism Behind the Mirror**

The mirror of heaven carries profound symbolism across various cultures. In Eastern traditions like Taoism, the mirror symbolizes self-reflection, inner clarity, and enlightenment. It reflects the notion that self-knowledge is the key to unlocking the divine potential within each individual.

In Western mythology, the mirror is often associated with the goddess of beauty and love: Venus. It represents vanity, self-obsession, and the notion of a distorted self-image. Breaking this mirror signifies breaking free from societal expectations and embracing one's true essence.

Moreover, mirrors have long held a place in the realm of folklore and superstition. The idea that breaking a mirror brings seven years of bad luck stems from ancient beliefs that mirrors held pieces of the soul. Shattering the mirror was akin to shattering one's soul, thus invoking misfortune.

## **The Quest for Transcendence**

Now, let us reflect upon the pursuit of transcending the illusions that bind us. Breaking the mirror of heaven is not a call for reckless destruction, but an invitation to face our deepest fears, shed limiting beliefs, and explore untapped frontiers of consciousness.

In today's world, where we are constantly bombarded with distorted versions of reality, breaking the mirror of heaven becomes a metaphor for embracing authenticity. It urges us to question societal norms, challenge the status quo and seek profound self-discovery.

Throughout history, great minds and enlightened souls have embarked on this journey. From ancient philosophers and mystics to modern spiritual seekers, the quest for breaking the mirror of heaven has been a catalyst for personal growth, transformation, and the pursuit of universal truths.

## **Unveiling Secrets Beyond the Opaque Reflection**

By relinquishing the illusions that distort our perception, we open ourselves to a world of boundless possibilities. Breaking the mirror of heaven offers a unique opportunity to align our intentions and actions with our true purpose.

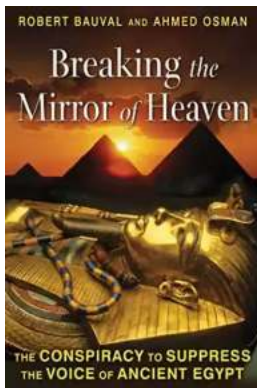

As we shatter the veils of illusion, we gain access to hidden realms and ancient wisdom. The fragments of the mirror scattered at our feet become stepping stones towards enlightenment, bridging the divide between the mundane and the divine.

Exposes the many cycles of monument destruction and cultural suppression in Egypt from antiquity to the present day

- Details the vandalism of Egyptian antiquities and suppression of ancient knowledge under foreign rulers who sought to cleanse Egypt of its “pagan” past
- Reveals the real reason behind Napoleon’s invasion of Egypt: Freemasonry

- Shows how the censorship of nonofficial Egyptology as well as new archaeological discoveries continued under Antiquities Minister Zahi Hawass

Called the “Mirror of Heaven” by Hermes-Thoth and regarded as the birthplace of civilization, science, religion, and magic, Egypt has ignited the imagination of all who come in contact with it since ancient times--from Pythagoras and Plato to Alexander the Great and Napoleon to modern Egyptologists the world over. Yet, despite this preeminence in the collective mind, Egypt has suffered considerable destruction over the centuries. Even before the burning of the Great Library at Alexandria, the land of the pharaohs was pillaged by its own people. With the arrival of foreign rulers, both Arabic and European, the destruction and thievery continued along with suppression of ancient knowledge as some rulers sought to cleanse Egypt of its “pagan” past.

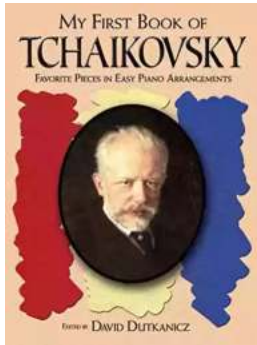

Exploring the many cycles of destruction and suppression in Egypt as well as moments of salvation, such as the first registered excavations by Auguste Mariette, Robert Bauval and Ahmed Osman investigate the many conquerors of Egypt through the millennia as well as what has happened to famous artifacts such as the Rosetta Stone. They show how Napoleon, through his invasion, wanted to revive ancient Egyptian wisdom and art because of its many connections to Freemasonry. They reveal how the degradation of monuments, theft of relics, and censorship of ancient teachings continue to this day. Exposing recent cover-ups during the tenure of Antiquities Minister Zahi Hawass, they explain how new discoveries at Giza were closed to further research.

Clearing cultural and historical distortions, the authors reveal the long-hidden and persecuted voice of ancient Egypt and call for the return of Egypt to its rightful place as “the Mother of Nations” and “the Mirror of Heaven.”
