Ask your child which superhero they would like to draw. Whether it's Spiderman, Batman, or Ironman, this technique can be applied to any character.

Step 2: Start with Basic Shapes

To create a chibi superhero, begin by sketching out the basic shapes that make up the character's body, including a big circle for the head, an oval for the torso, and smaller circles for the hands and feet.

Step 3: Add Facial Features

Next, draw the superhero's face within the circle. Use big, rounded eyes, a small mouth, and a cute button nose. Experiment with different expressions to give your chibi superhero personality.

Step 4: Define the Body

Refine the body by adding details like the superhero's costume and symbols on their chest. Remember to keep the limbs short and stubby to maintain the chibi style.

Step 5: Color it Up (Optional)

If your child enjoys coloring, they can bring their chibi superhero to life using colored pencils or markers. Encourage them to experiment with different color combinations and shading techniques.
