## Lost & Found in India

by Braja Sorensen

'The least pretentious diary of life in India I have ever read.' - Farrukh Dhondy, Best-selling author, "Rumi: A New Translation"

Despite how entertaining or exotic one may find other books on India to be, they share the trait of being written by foreigners on a brief journey, an adventure, and consequently they all deliver an often incorrect view of a country that is impossible to understand from the surface.

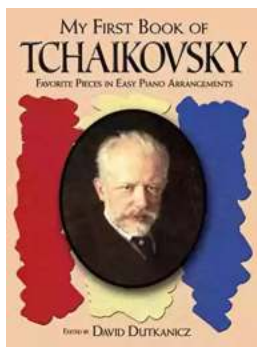

Sorensen moved in, set up house, became a resident in a village on the banks of the Ganges River, and eventually called India home. Her writing swings from the depths of ancient culture, spirituality, and philosophy, through to drunk bathroom repair men and India's wedding season, and ties it all together with direction, grounding, and an easily-digested reality.

Its funny, outrageous, controversial, deep, witty, spiritual, philosophical, and damned entertaining: in other words, it's India.
